

Colchester DF - October 12th 2008

Summary

Maxi Tx Powerful, within 15 Km of start, within 500m of a road, not too hard to find.

Mini Tx Unmanned, low power, find it by going to its parent Maxi.
Will be within 1 Km of the Maxi, may be difficult to find.

Timed when punched card is shown to any Maxi operator.

	270		1.963 MHz
	280		250 - 010 secs
	290		G4ICP/P

The colours show the three sites e.g. T and M are within 1 Km of each other.

Three Tx Event The first team to find all three Maxi stations on Channel 1.
This is intended for the less physically adventurous teams or new DFers.

Multi Tx Event The first team to find the most stations in the shortest time.

Transmissions: There will be some 'practice transmissions' between 13:00 and 13:15
The continuous cycle above will start at 13:20 and continue until 16:45. The **competition ends at 16:30**, after this is the 'help' period!
Note during the help period the Maxis may be unattended.
